

# Click™ Portal for IRB/REB

## Enterprise Software to Improve IRB Processes and Responsiveness

**Reduce turnaround times by up to 50% or more** while ensuring high quality and consistent oversight of human subjects research with Huron's Click™ Portal software. Combining industry-leading technology with subject matter expertise, Huron helps your organization not only improve compliance processes but also increase researcher satisfaction and productivity.

Click Portal for IRB integrates directly with your other electronic research administration and financial business systems to eliminate duplicate data entry and improve visibility across the organization. IRB protocol submissions can be linked to their funding sources, cross checked with annual COI disclosures of the researchers, and integrated with corresponding clinical trials.

### Only Click™ Portal

- Is currently helping more than 60 leading research institutions improve their IRB compliance efforts
- Is used by more than 30 AAHRPP-accredited institutions
- Enables sharing best practices via the industry's most active user group
